

## MACKILLOP CLUB UPDATE

3<sup>rd</sup> August 2017

### SHARK TANK PROJECT

Our MacKillop Club students have been very excited to launch into their new 'Shark Tank' project, which will be our focus for the term.

Students are required to develop an idea for an invention, business or product that fills a gap in the market. At the completion of the project timeframe, they will be required to 'pitch' their idea to a panel of 'sharks', consisting of staff members and parents. The person who secures the biggest overall financial commitment from the panel will be crowned 'Shark Tank Champion'!

The students are very excited to unleash their entrepreneurial spirit through this project and I cannot wait to see what they come up with!
